DETAILED ACTION

Priority

Acknowledge is made of applicants' claim for foreign priority base on an application 11-016819 filed in Japan on 01/26/1999.

It is noted that Applicants have not filled a certified copy of said application as required by U.S.C 119. The certified priority document was filed in the co-pending application/Patent Serial Number 09/492535 on 1/27/2000 ABN.

Oath/Declaration

The oath/declaration filed on 6/24/2003 is acceptable.

Information Disclosure Statement

This office acknowledges of the following items from the Applicant:

Information Disclosure Statement (IDS) filed on 6/24/2003 and made of record.

The references cited on the PTOL 1449 form have been considered.

Specification

The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections

Claim Rejections - 35 USC § 112

Set of Claims 19- 28 and 29- 38 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant introduces the new matter by adding :

“a semiconductor layer” into independent claims 19 and 29.

The added matter(s) is(are) not supported in the Specification and it (they) (is) are not satisfactory resolved and consequently raise doubt as to possession o the claimed invention at the time of filling.

Reasons for Indication of Allowable Subject Matter

Claims 9-18 would be allowed.

The following is a statement of reason for the indication of allowable subject matter:

Claims 9- 18 are considered allowable since the prior made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Huang et al. (U.S. Patent No. 5956598) and The Background of the Invention , taken individually or in combination, do not teach the claimed invention having the active area overlapping a top surface of the isolation region and among other limitation as cited in independent claim 9

When responding to the office action, Applicants' are advice to provide the examiner with the line numbers and page numbers in the application and/or references cited to assist the examiner to locate the appropriate paragraphs.

A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) day from the day of this letter. Failure to respond within the period for response will cause the application to become abandoned (see M.P.E.P 710.02(b)).
